STEALTH MISSION

STEALTH MISSION

written by Steve Setzler
directed by Bruce Artwick

Stealth Mission puts you in the pilot's seat of three different jets; an F-19 Stealth fighter, the experimental forward-swept wing X-29, or a Navy F-14 Tomcat.

The Stealth fighter can fly virtually undetected through enemy airspace. Select from eight different missions and ten skill levels. Choose the most effective ordnance (from an arsenal of air-to-air and air-to-ground weapon systems) to accomplish your mission goals. A targeting computer helps you detect, track, and lock onto enemy targets. Electronic Counter-Measures protect you from land, sea, and airborne enemy threats. And if you run low on fuel, an airborne KC-10 refueling tanker is never more than ten minutes away.

New 3D animation techniques provide dramatically faster frame rates for all cockpit window views. Other views (spot plane, control tower, map, missile's eye view) are also available. The program operates in three distinct visual flight periods; day, dusk/dawn, and night. During the day the sun tracks realistically across the sky from east to west. At night, the stars and constellations are visible. Stealth Mission is compatible with all SubLOGIC Scenery Disks, and includes complete VOR, ILS, ADF, and DME avionics for cross-country navigation.

Commodore 64/128

Requires:
- 1541, 1571 or compatible disk drive
- Color monitor recommended
- Joystick optional

Program Number: CM-SM1

LOGIC

LIMITED WARRANTY

SubLogic Corporation warrants to the original purchaser of this computer media that the software will be free from defects for a period of 90 days from date of purchase. If media proves to be defective within that 90 days, the purchaser must provide SubLogic Corporation dated proof of purchase and media (disk only) for free replacement of the defective product. Please include a brief statement describing the defect and be sure to include your return address.

OUT OF WARRANTY PRODUCTS

SubLogic Corporation will provide to the original purchaser of this computer media the option of purchasing a back-up (copy protected software) program or a replacement for out of warranty products for a fee of $10.00.

REPAIR/REPLACEMENT ORDER CARD

If the product is under warranty, please provide the following:

1. This card
2. Defective product (disk only)
3. Dated proof-of-purchase, sales receipt, etc...

*NOTE: Product returned without proof-of-purchase is not eligible for warranty service.

If the product is out of warranty, please provide the following:

1. This card
2. Check or Money-order

Thank you for buying a SubLOGIC Product!

Since 1977, SubLOGIC has been committed to the goal of providing our customers with the very best in simulation software.

We hope you'll agree that we've attained that goal. From Flight Simulator, to Jet, to Night Mission Pinball, our software products are the most realistic and sophisticated simulations available. And we'd like to thank you for making the various computer versions of Flight Simulator the best-selling entertainment software package of all time.

Now as we enter our second decade of software development, we'd like to reaffirm our commitment to the creation of new state-of-the-art simulations for all of the most popular computer systems.
